

GLOBAL

Satellite's Global restroom has leapt to the top of the industry, becoming a staple cost-effective restroom for operators in the USA. The clean, rigid design of the Global makes it great for events or construction sites. Key features include the new impact base, three-roll toilet paper holder, large hands-free door latch, and hover handle. Increased side panel thickness and a solid door frame make the Global one of the strongest units on the market. The interior layout creates a spacious feel that gives the end-users more space to move around. Smooth side panels with shallow impressions reduce dirt and debris buildup making the Global easy to clean.
