

HIGHRISE

This restroom is built exclusively for the highrise construction market and offers end-users and operators a unique set of features. The Highrise is sized to go where other restrooms cannot. With the optional roof it is only 85 cm wide and 2.23 m high. This allows the Highrise to be moved through halls and doorways to the place where workers need it most. The casters are sealed to prevent freeze up and can be greased for continued reliability. The frame and floor are made from galvanized metal to prevent damage while lifting and handling. This uniquely designed restroom fills the need for privacy, maneuverability, and dependability.

Lift Kit (Optional)

Fits Through Door Openings

Full or Semi Privacy
