

HOLDING TANK

This mobile holding tank can be used as a waste water tank or as a fresh water tank to ensure a longer lasting fresh water supply. It is also useful as temporary storage to limit your amount of visits to the sewage treatment plant. With two internal pillars and thickened corners, the holding tank can be stacked 6-high when empty. All fittings are molded, plus the tanks can be connected end-to-end with rubbers. All connectors are sunk in to guard against breakage.

SPECIFICATIONS

Dimensions (H x W x D) - 0.44 x 1.35 x 2.44 m

Empty Weight - 59 kg

Capacity - 1135 L

REMOVABLE TANK

Our removable tank is designed for use in spaces too small for our full-size toilets, such as on the floor of a building or other hard-to-reach areas, or inside toilet containers or toilets with removable tanks. Its handles make it easy to move around.

(Flushing is available as an option)

TOILET MOVER

Move any type of portable toilet easily with this lightweight, steel framed trolley. Tilt the trolley upright, slide the two steel rods under the toilet base and tilt backwards. The toilet is held firmly in place and rests safely on four tires for added support and equal weight distribution. Protect your equipment from damage and your employees from injury.

The mover is suitable for all self-contained toilets, including PRM models.

CONTAINMENT TRAY

Durable tray for collecting residues when cleaning cabins. Built strong for continual use, Satellite's containment tray has a thickened base to hold its shape, last longer and fit all standard-size restroom bases.
