

PLUTO 3

The Pluto 3 is the world's most trusted mobile urinal, used in over 22 countries for major events and city projects. Compact yet high-capacity, it accommodates four users at once, reducing queues and improving crowd flow. Its stackable design offers exceptional transport efficiency, fitting four units in the space of one portable toilet. Built-in fork slots simplify relocation, while stainless steel bars and optional concealed drains enhance stability and maintenance. Durable, practical, and efficient, the Pluto 3 remains the benchmark for event hygiene and logistics.

Personalize your units with your company logo (minimum order quantities apply).
